

## INDEX

- Accessions, 79-80  
Acquisition formula budgeting, 167  
Acquisition formulas, inability to define, 191  
Adams, Henry, 104  
Andreasen, Alan R., 97  
Anthony, Robert N., 28  
Automation, and empire building. *See* Empire building, and automation  
Automation, as management tool, 105  
  
Beer, Stafford, quoted, 166  
Bell Laboratories, 128-47  
BELLCALL, 136  
BELLPAY, 143  
BELLREL, 143-44  
BELLSER, 138-39  
BELLTIP, 132-37  
Bibliographic analysis, and Geac, 85-86  
Bibliographic cooperative management, and management information, 117  
Bibliographic information, as barrier to use of online catalog, 120  
Bibliographic Retrieval Service. *See* BRS  
Bibliometrics, and online databases, 150-52  
Billing information, 83-84, 115  
Book selection, at Bell Laboratories, 130-36. *See also* Selection of materials  
BRS databases, 151-55, 158-59  
Budget and expenditures, at PPLD, 33, 37  
Budgeting, acquisition formula. *See* Acquisition formula budgeting  
  
Caldwell, Jane, 151  
Cataloging information, at Bell Laboratories, 136  
Centralization, and management information systems, 63-64  
Challenged material, 55  
Cheney, Paul H. 28  
Cherns, A.B., 105  
Choice, in decision making, 13-15  
Churchman, C. West, quoted, 15-16  
Circulation information, 74-82  
Clapp-Jordan formula, 167  
  
Class reserves, 80-81  
Clerical tasks, automation of, 27  
Cocitation analysis, 156  
Collection development, and online databases, 151-54  
Collection management, and Geac, 85-86  
Command language, as barrier to use of online catalog, 120  
Communication, breakdown in, in organizations, 97-100  
Compliments and complaints, at PPLD, 33  
Component analysis, 175-80  
Computerization, as barrier to use of online catalogs, 119  
Control process, cybernetic, in systems, 18-20  
Cost, of data. *See* Data, cost of  
Critical incidents, at PPLD, 50  
Cultural deficiencies, as cause for non-use of information, 102-03  
Current information alerting service, 139-43  
Cybernetics, 18-20  
  
Data: collection of, 3-4, 114; cost of, 11; definition of, 10; historical nature of, 114; for management information system, 21, 171; sifting of, 112  
Data Entry Report (Geac), 80  
Data rejection, reasons for, 5  
Data system, and congruency with organization, 20  
Database, definition of, 148-49  
Database searching, 149  
Decentralization, and management information systems, 63-64  
Decision-making process, levels of, 13-16  
Decision support models, 22  
Decision support system, 28-58, 166; functions of, 29-30  
Deficiencies, educational. *See* Educational deficiencies  
Design, in decision making, 13-15  
Dickson, Gary W., 28  
Digital Equipment Corp., 43

- Dowlin, Ken, 29  
 Drucker, Peter, quoted, 111
- Educational deficiencies, as cause of nonuse of information, 100-01  
 Ellingson, Celia, 151, 152  
 Empire building, and automation, 103-04  
 Employee satisfaction, and management information systems. *See* Management information systems, and employee satisfaction.  
 Evaluation: of collection and online databases, 152; of management information systems, 21  
 Exchange process, 93-100  
 Expenditures, flow through. *See* Flow through expenditures
- Failure, reasons for, of management support systems. *See* Management support systems, failure of  
 Feedback control mechanisms, in systems approach, 19-20  
 Financial information, in Geac, 82-84  
 Financial records, of individual user, 84  
 Fines (Geac), 84-85  
 Firnberg, David, 101  
 Flow through expenditures, at PPLD, 43  
 Formulas, acquisition. *See* Acquisition formulas
- Geac, 72-91  
 General ledger program, 160-63  
 GLUG (Geac programming language), 76
- Hawkins, Donald, 150, 151  
 Hedstrom, Lori, 152  
 HEGIS data, 116, 171; and relation to LC class no., 172  
 Higher Education General Information Survey. *See* HEGIS  
 Hildreth, Charles R., 119  
 Hold status, for books, 77-79  
 Horn, Roger, 96
- Information: definition of, 10; instantaneous access to, 113-14; integration of, 124; nonuse of, cause of, 100-02; and organizational control, 106; value of, 11
- Information and Reference Report, at PPLD, 50  
 Information budgets, 8  
 Information gathering, and automated systems, 106  
 Information need, 113; and time constraints, 120-22  
 Information overload, 101-02  
 Input-process-output model, 12  
 Integration, of information. *See* Information, integration of  
 Intelligence, in decision making, 13-15  
 Interagency Activity Report (Univ. of Arizona), 74-75  
 Interlibrary Loan Report, at PPLD, 55  
 Internal orientation, 96-97  
 Inventory count, at PPLD, 33, 41  
 Inventory use ratio, at PPLD, 30, 35, 44, 45, 46  
 Inventory use ratio exceptions, at PPLD, 35, 42  
 Item information, 5
- Joseph, Earl, 125
- Kaske, Neal, 118  
 Keen, Peter 166  
 Known-item searches, 121
- LC class number, and HEGIS file, 172  
 Libraries, systems view of, 16-20  
 Library data, and lack of link with academic administrative data, 168  
 Library operations, models of, 7  
 Lost items. *See* Missing items  
 Luddite response to automated information systems, 102
- Macrodecisions, and selection of material. *See* Selection of materials, and macrodecisions
- Management control, 28  
 Management information: and decision situation, 10; and individual manager, 11; from online circulation system, 143-45; and organizational context, 11; users of, 116-17; uses of, 169  
 Management information systems: acceptance of, variables affecting, 60-62; and alteration of organizational processes, 65-66; analysis and design

- stage of, 24; budgets for, 8; centralization *v.* decentralization, 63-64; and changes in control, 64-65; and computers, 6-7; *v.* decision support systems, 166; desiderata for, at Univ. of Arizona, 73; design of, 29; and effect on management, 67-70; and employee satisfaction, 69-70; evaluation of, *see* Evaluation, of management information systems; impact of, on organizational processes, 66; motivation to use, 105-06; organizational aspects of, 59-70; planning for, 24; and professionalization, 64; purposes of, 111-12, 169; stratification of, 4; at SUNY, reasons for inception, 167-68
- Management Review and Analysis Program. *See* MRAP
- Management support system, failure of, 22
- Manager, and management information, 116
- Managerial action, 10
- Marketing, problems of. *See* Exchange process
- Markey, Karen, 118
- Materials encumbrances, 50, 52-53
- Mathematics, fear of, 7
- MERCURY, 139-43
- Microdecision, and selection of materials. *See* Selection of materials, and microdecision
- Middle manager, changes in work of, with management information systems, 67
- Miller, George, 8
- Missing items, 75-77
- Model, for management information system, 169-70
- Modeling, 166-67
- Models, for managerial support, 22
- Mooers, Calvin, 2
- Mooers's Law, 2, 5
- Motivation, to use management information systems. *See* Management information systems, motivation to use
- MRAP, 68
- National Center for Higher Education Management, 31
- Numerical information, and difficulty of use, 100-01
- OCLC Interlibrary Loan Subsystem, 115
- Online Catalog Project, 119
- Online catalog use count, at PPLD, 43, 49
- Online catalogs, barriers to use of, 119-20
- Online databases: and bibliometrics. *See* Bibliometrics, and online databases; and collection development. *See* Collection development, and online databases
- OPACS. *See* Online Public Access Catalog Systems, 118
- Operational control, 28
- Organization: input/output processes of, 12; maturity of, 61; psychological climate of, 61; as source of management information, 20; subunit of, 12; systems view of, 11-20
- Organizational control, and information. *See* Information, and organizational control
- Organizational processes: at general personnel level, 66; at individual level, 65-66
- Organizational resources, budgeting of, 61
- Overdue items, 85
- Overlap analysis, 175-76, 180-88
- Overlap studies, of databases, 154-55
- Owens, Tom, 73, 74
- Parkinson's Law, 7
- Patron information: at PPLD, 55, 57; with Geac, 87
- Patron tenure, at PPLD, 43, 48
- Patron use, at PPLD, 43, 47
- Patron use ratio, 30
- Perceptual survey, at PPLD, 35, 42
- Performance gaps, 94-96
- Periodicals use, at PPLD, 55, 56
- Pikes Peak Library District, 27-58; organizational structure of, 36; reports produced by, 33-58; survey of, 31-33

- Planning, for management information systems. *See* Management information systems, planning for
- Power: and management information systems, 124; and special knowledge/information, 107-08
- PPLD. *See* Pikes Peak Library District
- Priesthood, of automation, 103-05
- Printouts, 7
- Privacy, problems of, 124
- Processing, efficiency of, 112
- Project status reports, at PPLD, 35, 55
- Reference questions, and online databases, 149-50
- Regional network managers, and management information, 117
- Rejection, of data. *See* Data rejection
- Research, and management information systems, 118-21
- Research interests, of patrons, and online databases, 155
- Revenues, at PPLD, 33, 38
- Runyon, Robert S., 93
- "Russell's inference," 2
- Scattering, 151
- Search log, information for, 157-58
- Security reports, at PPLD, 43
- Selection of materials: and macrodecision, 191; and microdecision, 191
- Senior management, and management information, 117
- Sensory deficiencies, as cause for non-use of information, 101-02
- Serials control, at Bell Laboratories, 138-39
- Service data, lack of, 168
- Service indicators, at PPLD, 33, 39, 40
- Shank's syndrome, 2
- Strategic contingencies model, 107-08
- Strategic planning, 28
- Stress, in organizations, 94-96
- Subject access project (OCLC), 118
- Suboptimization, 112
- SUNY/OCLC Network, 165-66
- System development process, 23-25
- Systems approach, of C.W. Churchman, 15-18
- Systems management report (Geac), 87-89
- Terminal Requirements Project (OCLC), 118
- Tolle, John, 118
- Transaction analysis, 122-23
- TSTA Report, 81
- University of Arizona, library management information system of, 72-91
- User cards, expired, 77
- Value, of information. *See* Information, Value of
- Visual illiteracy, 7
